

**British Geological Survey**

NATURAL ENVIRONMENT RESEARCH COUNCIL

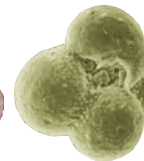

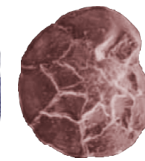

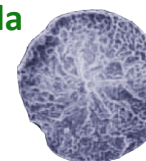

26 - 30 September 2011

**Micropaleontology Short Course offshore UK, Norway and Canada**

*Instructor: Felix M. Gradstein*

*Course coordinators: Sev Kender,*

*Mike Stephenson and Stewart Molyneux*

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
9:00-10:30 1. Atlantic Canada introduction + literature 2. Atlantic Canada geology and hydrocarbon production	9:00-10:30 1. Biostrat Grand Banks and conjugate margin (+ birth of the Atlantic Ocean) 2. Flemish Basin drilling and a dinner in Paris	9:00-10:30 1. Applied PWD with Deep Water Benthic Forams 2. DWAF Introduction + literature	9:00-10:30 1. Drilling with BadBiostrat 2. North Sea Introduction + literature + NORLEXstrat database access	9:00-10:30 Offshore Norway Cenozoic biostrat.
10:30-10:45 Coffee break	10:30-10:45 Coffee break	10:30-10:45 Coffee break	10:30-10:45 Coffee break	10:30-10:45 Coffee break
10:45-12:00 Biostrat and Paleoecology, Mesozoic Grand Banks	10:45-12:00 Cenozoic Biostrat Newfoundland Basin, Labrador Shelf, off NW. Greenland	10:45-12:00 Applied Paleobathymetry with Deep Water Agglutinated Forams	10:45-12:00 North Sea Geology and hydrocarbon production	10:45-12:00 Offshore Norway Mesozoic biostrat (incl. Vøring Basin)
12:00-13:00 Lunch break	12:00-13:00 Lunch break	12:00-13:00 Lunch break	12:00-13:00 Lunch break	12:00-13:00 Lunch break
13:00-15:00 Grand Banks Mesozoic zonal taxa 	13:00-15:00 Offshore E. Canada Cenozoic zonal taxa 	13:00-15:00 DWAF types (many) 	13:00-15:00 North Sea zonal taxa 	13:00-15:00 Offshore Norway zonal taxa 
15:00-15:15 Coffee break	15:00-15:15 Coffee break	15:00-15:15 Coffee break	15:00-15:15 Coffee break	15:00-15:15 Discussion and finish
15:15-16:00 Grand Banks Mesozoic zonal taxa 	15:15-16:00 Offshore E. Canada Cenozoic zonal taxa 	15:15-16:00 TimeScaleCreator Pro Introduction + Canada, NS datapacks self work	15:15-16:00 Labrador/North Sea zonal taxa
